Abiade Azeez

SENIOR SOFTWARE DEVELOPER

✉ abiadeabdulazeez@gmail.com

Profile

Experienced Senior Software Developer with a proven track record of contributing to dynamic teams and driving innovative solutions. Skilled in JavaScript, C#, Python, and Docker, with a passion for staying at the forefront of technological advancements. Pursuing growth in coding skills and seeking to collaborate with an exceptional team to create impactful projects and carve a niche in the IT industry. Excited about the prospect of honing my expertise and making meaningful contributions to a forward-thinking organization.

Employment History

Web developer, Jason tech academy

November 2023 — Present

As a Frontend Developer, I have been working as a freelancer since November 2023. In this role, I am responsible for creating and implementing user-friendly and visually appealing websites using JavaScript, Git, React, HTML5, and CSS.

Senior Software Developer, Writer's Network International

July 2023 — Present

Currently employed as a Senior Software Developer at Writer's Network International. In this role, I am focused on advancing my coding skills and collaborating with an exceptional team to create innovative projects within the niche of IT.

Full Stack Developer, MTEDEV

January 2023 — Present

Currently working as a Full Stack Developer at MTEDEV, where I am responsible for developing and maintaining VTU web applications using PHP, Flutter, Dart, MySQL, and Firebase. I collaborate with cross-functional teams to gather project requirements and implement new features to enhance application functionality and user experience.

Web designer, Dexx Technology

December 2022 — January 2024

Worked as a Web designer at Dexx Technology, where I was responsible for designing and developing visually appealing and user-friendly websites. I collaborated with cross-functional teams, including UX/UI designers and developers, to create engaging and interactive web experiences.

Software Engineer, Aezion Technologies Private Limited

June 2022 — December 2024

Currently employed as a Software Engineer at Aezion Technologies Private Limited, where I specialize in developing and maintaining software solutions. I utilize a range of skills including JavaScript, Git, SQL, React, Python, and C#. My responsibilities include:

Software Developer, Tech Innovators
